

Nazism and The Rise of Hitler class 9 (Animation) _ Class 9 History Chapter 3 _ CBSE _ NCERT.mp4

To friends, today I am studying chapter no. of class 9th history. 3 Its name is Nazism and the rise of Hitler. Friends, this chapter begins with an 11 year old boy whose name was Helmut. What happened once was that Helmut was lying in his room when he noticed that his mom and his dad were talking to themselves.

Helmut's father tells Helmut's mother that it is time to commit suicide because the same thing is not going to happen to us like it did to the Jews. So should I commit suicide alone or should we all together commit suicide. All these conversations were spent with Helmut.

What happens the next day is that Helmut's family visits and he spends some time with each other. They are enjoying our day very well, they are having fun. But the next day news came that Helmut's father had committed suicide by shooting himself in his office.

Doctor Helmut had suffered a lot because of this. He was in so much pain that he did not go to his house for the next 9 years. Because he was in pain that his mother looked at him but did not. Now friends, all the questions in your mind must be that what caused Helmut's father such pain that his face forced him to commit suicide.

After all, what kind of situation would they be facing? If we want to know all this we will have to know in flashback. To start talking in 1914. Intro: The first world war started in 1914.

Not many people ran in this war. World war first started between two powers. Play the allied powers and do the same to the central powers. The Allied powers came to England, France and Russia. And the Central powers came Germany, Austro-Hungarian Empire and Ottoman Turkey.

In our time, Germany had great power. Germany and other Central powers also refused. But in 1980, Allied powers got the support of USA. From whose face the Central powers are born. Matlab Germany's biggest performance was USA. Because Germany has become its Emperor.

He has abdicated. It means you have given your foot away. Ab Raza submitted his request to the Government to ban it. Because without government nothing will go on. There was a place in Germany whose name was Weimar. A National Assembly is convened on the occasion. Which is called Weimar Republic Formation.

And through this, Federal Structure and Democratic Constitution was created for Germany. Now a Democratic Constitution was formed in Germany. Democracy will come to Germany. Because of this, people started voting to elect other members of the German Parliament. And all adults can do this voting including women.

Now you are thinking that Democracy has come. That's what you said. But the people of Germany did not like it. Why didn't you like it? Because it created the Weimar Republic. Matlab jo assembly bani thi. He signed a peace treaty. Which we call Treaty of Versailles. The meaning was a compromise between Germany and the Allied Powers.

In which Germany's shoulders and forehead were raised. Imposed cows were there. Many cheeses were also bought from Germany. As if their territories were taken away from them. Iron chin was taken. Coal was bought. So much so that even his army was defeated. Because the Allied Powers did not want Germany to face war in the future.

Apart from all this, Germany was forced to pay 6 billion Euro compensation. There was a place in Germany called Rhineland which was famous because it was also known as China for its resources. That's why the Allied Powers were unable to do anything. So why are you leaving us? To the Government.

Who is the government keeping in hand? That's why people were also relying on the Democratic Government. And this is why most of the people did not like the Weimar Republic. And neither have people accepted the Weimar Republic well. But few people supported the Weimar Republic. Oneh Germany's log November Criminal bolted the.

Because he had signed the Treaty of Versailles. And when was this done? In the month of November 1918. That's why they said November Criminal. Due to World War I, the fate of the people and the fate of the whole of Europe was very bad both mentally and physically.

Which countries of Europe did this before World War I? Today his situation has become such that he has immersed himself in his work. World War I is a very real problem in Europe.

The doctor had come. Especially the movements of Germany. There was hyperinflation in Germany in 1923. Matlab Germany was much more laborious.

Inflation increased so much that people had to pay bundles of notes to buy a loaf of bread. Why did it happen like this? This happened because Germany had worked for the war. And this work was so much that Germany could not turn it back. Due to this, Germany's gold stock was also depleted.

What does France do in the meanwhile that it has a place in Germany that the Ruhr has occupied? Because of this there is a sharp decline in the supply of resources. Because Germany was poor. After knowing the signs of his soul, he becomes even more poor. So to avoid this, the government started printing Andhra currency.

Due to which the value of currency has fallen and the prices of goods have skyrocketed. Due to over printing of currency, the people of Germany had to give bags full of notes to buy small things. And this situation has been called hyperinflation. And we know who helps Germany in such a situation?

America does it. Meaning, the one who was Germany's biggest enemy in World War 1 was helping Germany today. To help Germany, USA created a Davis Plan under which USA gave a small loan to Germany. So that Germany's situation can improve. And it remained like this also.

Germany's situation was also improving with the help of USA. Everyone was doing the right thing. But what happened in 1929? The USA is going through the Great Economic Depression. And why has this come? Because USA's Wall Street Taxing is about to crash. Now the little support that Germany was getting is also being banned.

Because USA's own situation is getting worse. The National Income of USA is falling due to Great Economic Depression. Factories are being banded. Export has stopped. People have no money left. Matlab USA also seems to be in a bad situation. USA is suffering but its consequences are also visible on the internet.

If we talk about Germany, Industrial Production in Germany falls by 40%. 6 Million people remain unemployed. From whose face criminal activities are seen. People have come back to steal jobs and loot. How many people's businesses are being destroyed? The prices of farmers' crops fall.

Women are not allowed to take care of their children's things. Now for a day it seemed to the people that he had not come to Sadak anywhere. And the government is also in this situation.

No good solution has yet been found. Now friend, you think that even after all this, people will respect the government.

Nahi na. So the little belief that people had about the meaning of the government of the Weimar Republic has been completely destroyed. People completely believe in this since the Weimar Republic. And from here comes Hitler's rise. So let us read deeply about Hitler. Hitler was born in Austria in January 1889.

He spent his childhood in a very poor institution. Hitler joined the German Army in World War 1. After that he did very good work in our army. Infact she has also won many medals. But Hitler suffered the greatest pain when Germany lost World War 1. Its goods came from the Treaty of Versailles

He becomes even more furious with Hitler. Hitler wanted to do a lot for Germany. That's why he joined a political party in 1919. Whose name was the German Workers Party. Gradually the head of Hitler's party emerges. And then he named our party Badal.

And this is done by the National Socialist German Workers Party. And this party was later called the Nazi party. Hitler and his party had a different style of working. The way of saluting him was also different. His symbol was different. Kuch is the symbol of the Nazi party.

Now let us talk about how the Nazi party came into German politics. Rise of Nazi party in German politics. What happens is that there is an election for the German Parliament during 1928. In which the Nazi party is acting in a very bad manner. He got only 2.6% votes in the German Parliament.

This is normal. Because at that time no one knew Hitler. And not the Nazi party. But in 1929 the situation appeared to be somewhat different. What happens in 1929 is that the Great Economic Depression comes. And I also told you what this Great Economic Depression was.

To this end a lot of people spend time in Paris. And Hitler took advantage of this. What does Hitler do that attracts people to his side? And I ask people if you support me. And you can vote in the election. To main, I will eliminate all your problems. What does Hitler do after this?

And by the way you must have heard something. That Hitler was a very powerful speaker. He was the speaker of so much nonsense. That she was able to influence people very quickly with her words. And this cheek also got its benefit. Finally in 1932 the Nazi party won the election. He got 37% votes in the German Parliament.

Just like the Nazi party has come into majority today. Why did Hitler commit such crimes? With Jinki face the Nazi party won the election. Let's see. So Hitler told people that if he had won the election. So I will make Germany a strong nation. Second, Hitler said that he would abolish the provisions of the Treaty of Brussels.

Third, I have restored the dignity of an individual. Fourth, I will increase employment in Germany. Fifth, I will stop foreign interference. Meaning, Hitler did all these things. And because of these promises the Nazi party won the election. After winning the election, Hitler did not release any issues or hold any public meetings.

That's why you can gather your support. Gradually Hitler's support declined. And Hitler came to power. On 13th January 1933, President Hindenburg of Germany announced Hitler as Chancellor of Germany. Like Hitler's body gained even more power.

Now what does Hitler think about why a dictatorship should be set up by destroying democracy? What happened in February 1933? The German Parliament started functioning again. And Hitler took advantage of this. From this time onwards the fire decree has come on 28th February. What can we mean that an order from the government has come.

This decree seems to take away all the civic rights of the people. Like freedom to speech, phrase and assembly. It appears that all of them have been suspended. What happens after this is that the Enabling Act is passed on 3rd March 1933. And just like that the Enabling Act was passed. Democracy has been lost since the birth of Germany.

And dictatorship has been set up. And from here Hitler becomes dictator. Now Hitler had poor power. He could do whatever he wanted in Germany. After becoming dictator, Hitler banned other parties. Only one party is left, which is the Nazi party. Matlab Germany had become a single party country.

Now it was destroyed as we had seen. What other promises did Hitler make to boost the German economy? And he also works for us. What does he do that gives responsibility to an economist? Whose name was Hjalmar Schacht. Hitler tells him to go and improve the economic condition of Germany.

So for this Hjalmar Schacht aims at 2 cheques. First full production and second full employment. Because agar production has to be controlled. So people will be needed for this. If employment is available to you, you will get it. The government funded this project. And due to this project, you will see super highways and cars like Volkswagen in Germany.

What other changes did Hitler make in the conduct of foreign policies? Like Hitler withdrew Germany from the League of Nations in 1933. Rhineland which was taken from Germany. He was reoccupied by his father. Hitler united Austria and Germany in 1938.

By the slogan of one people, one empire and one leader. So friends, these are some changes that Hitler made to the conduct of foreign policies. After this Hitler started occupying a few places. Like he was the first to occupy Sudan's land. Now friends, some time ago I told you about an economist.

Which was involved in improving the economic condition of Germany. Yes exactly her name is Zalmata Sachet. So this Zalmata Sachet was a good advisor along with the economist. So this says to Hitler that you should think about improving the economy of your country. Fathoma, we are sitting in the laddi jagdi along with other sons.

You should not spend too much money on all these things. Hitler did not like this thing. Hitler's intentions were completely clear and he believed that the war was going on. Hitler's motto was that I should do development in my country. Whereas I could occupy any other developed country. Zalmata Sachet did not like these things of Hitler.

That's why he supports Hitler and drives away. And the one who happens to be Hitler starts waging war to overcome the economic crisis. On 1st September 1939 Germany attacked Poland. And along with me success has also been achieved. France and England did not like seeing this.

And on this we meet Saath. And this is why we go to war with Germany. And this is where the 2nd World War begins. Then in September 1940 the tripartite pact was signed. In which 2 countries join hands with Germany to fight world war. And those countries are Italy and Japan.

The meaning is that France and England will move towards one side. And on the other side are Germany, Italy and Japan. Now friends, I have understood you through the diagram. What exactly happened during World War 2nd? Take it as it is, this is Germany. This is England. And this is the Soviet Union. Matlab is Russia. Now friends, what is happening?

That in June 1941, Hitler attacked the Soviet Union. This was a bad decision by Hitler. Why was it? Because then Germany was subjected to British Bombing on western border. And on the eastern border to the Soviet Army. So this is the Soviet Army. He was watching the brutal defeat of the German Army at Stalingrad.

Where doosri ho jo was USA. He did not want to enter World War 2. Because of the economic crisis caused by World War 1st. USA had to suffer. He didn't want to wear them. That's why USA wanted to stay away from World War 2nd. But USA has not got its disease. Why? Because it is Japan.

He was continuously expanding his power towards the east. He had also captured Indo-China. Everything was fine here. What happens when Japan attacks a naval base of the USA? Whose name was Pearl Harbor. USA was angry because of this. And USA entered the war on 8th December 1941 even though it did not want to.

And with the entry of USA, World War 2 ends. Because one thing is known to all of us. That USA is still very powerful. And earlier too there was a lot of power. World War ended on 2nd May 1945 with two cheeses. First with Germany's hair. And second with the atomic bomb blast on Hiroshima.

Friends, this little disaster has created havoc. His biggest reason was Hitler. Hitler was also the cause of World War II. And millions of people fell in love with her face. The reason for this was also Hitler. Hitler had eaten everything. People's trust, their power, their country.

That's why he commits suicide along with his family in a bunker in Berlin. And along with him his propaganda minister Gobels also committed suicide. And in the beginning of the second chapter I told you a story. In this, Helmut's father commits suicide. She committed suicide because she was also a supporter of the Nazi party.

Matlab was a supporter of Hitler. By May 1945, Germany had surrendered. And allies power is rising. After this an international military tribunal was established in Nuremberg Germany. Meaning a formal court has been established. It includes allied powers, such as France, UK, USA,

And the Soviet Union, meaning whoever won the country, was considered a war criminal. And who are the war criminals? The log of the Nazi party. Meaning he was a supporter of Hitler. The people of the Nazi party committed all the crimes. Like crime against peace, war crime,

And the worst crime he committed was the crime against humanity. Meaning they tortured millions of innocent people. Atyachara to chhodo, he gave them maari. The people of the Nazi party killed 6 million Jews during World War 2. 2 lakh gypsies were killed.

1 lakh police killed civilians. And 17,000 Germans were killed, physically and mentally disabled. So for this, which was an international military tribunal, it sentenced only 11 people to death. Everyone else was just told about the ombre. He did it with people like,

In comparison to them, it was much less for them. Now we talk about Nazi ideology. Meaning what was the ideology of Nazi people? We can also call this Hitler's ideology, because Nazi logo was Hitler's supporter. To that Nazi log, they maintained racial segregation within society.

The meaning is to create a lot of confusion among the people. Germany's andar is the top priority, such people are given the status, they are the ones with jinky blue eyes, and the blonde hair are the ones. Such people were called Nordic Aryans in Germany. Meaning their level of impotence was higher than others.

Aisa Nazis maand the. And if we talk about the lowest people, then we will talk about the Jews. The Jewish people were considered weak in Germany, and the Jewish people were given some impotence. And he hated Hitler and Nazi people too, but he hated Jewish people the most. Why is it like this, who can do it.

The first reason was that Jewish people were considered the killers of Jesus Christ. The second reason also seemed to be that loans were given at higher interest rates to Jewish people and other German people. And he was Hitler, he also personally hated Jewish people. That's why Nazi people started boycotting Jewish people.

The Nazis burned down their synagogues, meaning the places where they worshipped, they burned down the synagogues. Jewish people were thrown out of government jobs, and even their houses were burnt. And gradually Hitler started killing them. Hitler did a lot of mass killing,

This means that once upon a time the main people were killed by all the Jewish people. And you know, what Hitler said to the people, that he should not do mass killing, he should give special treatment to the people. Now why did he say that, because Hitler meant that if we want a good society, we should have a healthy society.

We should give food to undesirable people like this. This is what Hitler meant. And you found out that Hitler's method of death was of a different kind. He taught people in a humorous manner. What he did was that he put people in a gas chamber, then sprayed poisonous gas on them and killed them.

Hitler forced Jewish people to live in ghettos. Meaning, to live in such an area, there was a lot of smell, filth, disease.

She felt that the log was left on the vehicle. Meaning there was a lot of infected area. Such an area was being created mainly by Hitler's forces to allow Jewish people to live.

And if he could not bear it, he was given special treatment in the gas chamber. Now friends, it was Hitler who used to target children also. Because he knew that children are the future of the country. And Hitler also knew that children adopt anything quickly as compared to others. Because you yourself think that children will be taught this only since childhood,

That Hitler is your god, you should worship him. It is obvious that Hitler will be considered God even after being a bad person. So for this Hitler banned Jewish teachers from all the schools, and also segregated the children, in which the Jews are separated, the Germans are separated. And Jews can't play with Germans,

And he could not sleep with me. And later Jewish kids were also expelled from schools. And the most important thing, what Hitler did was change the school textbooks. Those books were read only on Nazi ideology, which also taught children Nazi ideology. Now everything is being taught in schools to hate Jews.

Support Hitler and the Nazi party, salute them, and remain loyal to them. This is what is being taught in schools. Because of this, Hitler also ran a youth organization, so that he could target youth as well as children. Now see how Hitler targeted.

The remaining 10 to 14 years of age were imprisoned in Jungbog. Jungbog was basically an organization of Hitler, where children were given ideological and physical training. After a Jungbog like he was left when he was 14 years old, he had to join another organization,

Its name was Nazi Youth Organization. And this organization was formed in 1922. This organization was also called Hitler Youth. It also taught us everything that Hitler wanted. Just like you hate Jews, stay away from undesirable people, war and violence are right,

Worship Hitler, and always be loyal to Hitler, this is how Cheezin was taught. And then as he was about 18 years old, he was sent to labor services.
